Sizing Suggestions & Helpful Hints

We suggest you measure your students while they are wearing a leotard for the most accurate measurements.

When trying to decide which size to order, girth (A) should be the most important measurement.

Take into account that young children will grow throughout the year.

Our XLC and XXLC sizes are made to fit a larger child, not a petite adult.

MEASUREMENTS

A. Girth: Measure from the center of one shoulder, down through the crotch, and back up to the same shoulder

B. Bust: Measure across the back and around the fullest part of the bust

C. Waist: Measure around the natural waist

D. Hips: Measure around the widest part of the hips

Inseam: Measure from the crotch down to the ankle bone on the inside of the leg
